LLM Decode Jobs - every page and slug (with links)

Made from the local database on 2026-11-04 07:12: **7399 open jobs**. Local links start with `http://127.0.0.1:8070`; on live the same paths work on `https://jobs.llmdecode.ai`.

Every list below is dynamic: a page exists while it has open jobs, and new ones appear with the next sync.

Filters on each page

The left Filters panel of every list. Each filter is closed until clicked; a filter already applied stays open with a count. A page never shows the filter of what it already is (a company page has no Company filter). Salary and Language only show when jobs on that page state them.

Page	Example	Filters shown	Not shown (already chosen)
All jobs	/jobs/all	Location (Region, Country, City), Experience (years), Work mode, Job type, Experience level, Salary, Time posted, Language, Industry, Department, Role / Designation, Skills, Company, Company size	-
Industry page	/categories/sales	All except Industry	Industry
Job role page	/jobs/role/data-analyst	All except Role / Designation	Role / Designation
Department page	/departments/sales	All except Department	Department
Company page	/companies/swiggy	All except Company and Company size	Company, Company size
Country page	/locations/india	Location shows only City; all the rest	Region, Country
City page	/locations/bengaluru	All except Location	Location
World region page	/regions/asia-pacific	Location shows Country and City; all the rest	Region
Region of India page	/regions/north-india	Location shows only City; all the rest	Region, Country
Search with a typed place	/jobs/all/near-Bengaluru	All except Location (the place is in the search bar)	Location
Course page	/jobs/course/sell-ai	Location (Region, Country, City), Experience (years), Work mode, Job type, Experience level, Salary, Time posted, Language, Industry, Department, Role / Designation, Skills, Company, Company size	-
Jobs Explorer landing	/jobs	No filter panel: search bar, industries, latest jobs	-

Every filter is one part of the address (never ?query): work mode `remote`, job type `full-time`, level `senior-level`, years `3-6-years-experience`, place `in-bengaluru`, region `region-...`, `company-...`, `skill-...`, `lang-...`, `salary-...`, `posted-7-days`, `search/words`, `newest`, `page/2` - in one fixed order, so one set of filters has one address.

1. Main pages

Page	Link	Open jobs
Jobs Explorer (landing)	/jobs	7399
All jobs (search + filters)	/jobs/all	7399
Latest jobs	/jobs/latest-jobs	
Posted by LLM Decode	/jobs/llmdecode	1
For companies (Hire Talent)	/jobs/employers	
Post a job (form / sign-in)	/jobs/post	
My jobs (employer)	/jobs/my	
Jobs FAQ	/jobs/faq	

2. Directories (all of a kind)

Link

	/jobs/track-marketing	
	/jobs/all/near-Bengaluru	
	/jobs/all/search/python	
	/jobs/all/newest	
	/jobs/all/page/2	

Filters combine in one address, e.g. /categories/sales/remote/full-time/in-india/senior-level/newest

11. Courses - `/jobs/course/<code>` (4)

	Matching jobs	
AI	/jobs/course/sell-ai	
	/jobs/course/genai-mastermind	
	/jobs/course/claude-masterclass	
ling 101	/jobs/course/funnel-101	

12. One job - `/jobs/<job-slug>` (7399, one per open job)

Every job has its own address from its title and place, e.g.:

• [[Bosch R&D – Internship] Simulation Engineering Intern](http://127.0.0.1:8070/jobs/bosch-r-d-internship-simulation-engineering-intern-ho-chi-minh-city)

• ■■■■■■■■■■ XC

• Senior Software Engineer - Python

• (Senior) Brand Manager

• Growth Management- User Growth I Exp- 6- 10 Years

• Marketing Manager, Brand Strategy & Omnichannel Marketing, Neuroscience

• Senior Manager, Engineering

• Key Account Director - CRM - TMT

Older addresses still work and move to the new ones: `/jobs/ext/<id>`, `/jobs/<id>/<slug>`, `/jobs/category/<slug>`, `/jobs/company/<slug>`, `/jobs/location/<slug>`, `/jobs/region/<slug>`, `/industries`.

13. Not pages (used by buttons, never linked)

`/jobs/ext/<id>/go` (Apply Now to the employer, tracked), `/jobs/ext/<id>/apply` and `/applied` (our form), `/jobs/jd/<id>` (an employer PDF), `/jobs/auth/state`, `/jobs/auth/role`, `/jobs/results-count`, `/jobs/latest`, `/jobs/my/<id>/applicants|resume|close|reopen`, `/api/llmd/applications`.
